

TST FAB & MACHINE, LLC.

Built to Evolve. Certified to Deliver.

TST Fab & Machine is a multi-faceted, Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in high-performance metal fabrication and machining for defense, maritime, and commercial industries. More than a metal shop, we are a mission-focused manufacturing partner—bringing precision, professionalism, and resourcefulness to every weld, cut, and component. With every project, we deliver with speed, skill, and integrity—meeting the mission through tailored solutions and an unwavering customer focus.

OUR SERVICES

METAL FABRICATION & ASSEMBLY

We provide end-to-end fabrication—from cutting to forming to welded assemblies—supported by advanced CNC laser, waterjet, punching, and forming capabilities. Our Tech-Pub approved welders deliver precise, spec-compliant results for every job. Whether it's sheet metal or plate, we offer complete in-house fabrication and assembly solutions.

MACHINED PARTS

Our CNC milling and turning capabilities support everything from tight-tolerance components to large-format machined parts. We specialize in carbon steels, aluminum, stainless, titanium, and nickel alloys—ensuring readiness for both standard and high-spec projects.

PRESERVATION POWDER COATING & CUSTOM PAINTING

Our paint booths and powder coating systems provide full finishing solutions—from prep to final coat. Whether your job calls for industrial durability or detailed cosmetic finish, we've got you covered.

CERTIFIED. COMPLIANT. CAPABLE.

- Approved Welding Procedures from Newport News Shipbuilding (NNS), A Division of HII for shipboard work—certified to NAVSEA and NNS specifications, including surface ship, submarine, and aircraft carrier applications
- Passed NNS (E37) Audit for Tech-Pub Welding and Nondestructive Testing (NDT)
- ISO 9001:2015 Certified Quality Management System (QMS)
- AS9100 Certified Quality Management System (QMS)
- Active DoD Mentor-Protégé with Q.E.D. Systems
- Expanded facility footprint and equipment to meet demand for high-tolerance, Mil-Spec and shipyard-certified work

BUILT FOR PARTNERSHIP

We don't just deliver parts—we deliver precision, partnership, and peace of mind. TST approaches every project as a true collaborator—responsive, reliable, and ready to solve problems alongside you. We align with your mission to deliver results that perform on time, to spec, and with zero compromise.

COMING SOON

We've evolved—and we're not slowing down. Driven by innovation, mission alignment, and a deep commitment to strengthening the maritime and industrial base, as well as the Hampton Roads workforce. As part of that commitment, we're actively pursuing:

- Additional Welding Certifications - Approved Welding Procedure Specifications (WPSs)
- Expanded capacity for high-spec aluminum & CNC machining

Our goal? To keep raising the bar on quality, compliance, and capability

SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB)
MINORITY-OWNED SMALL BUSINESS

DOD MENTOR-PROTEGE

In June 2022, TST Fab & Machine and Q.E.D. Systems, Inc. entered in the DoD Mentor-Protégé Program through the Department of the Navy Office of Small Business Programs. This program will match TST's technical capabilities with the certifications, qualifications and government specific processes needed to be a fully serviceable DoD Prime and Subcontractor.

YOUR MISSION IS OUR MISSION—PRECISION, PERFORMANCE, AND PARTNERSHIP FROM START TO FINISH.
